

LHDA Champions Regional Collaboration at ORASECOM Climate Investment Conference

The Lesotho Highlands Development Authority (LHDA) recently participated in the ORASECOM Climate Investment Conference, hosted by the ORASECOM Lesotho Office. Held on 8 May 2025 at the Avani Maseru Hotel, the conference served as a vital platform for transboundary dialogue on water resource management among the four ORASECOM member states: Lesotho, Botswana, South Africa, and Namibia.

The Lesotho Highlands Development Authority (LHDA) recently participated in the ORASECOM Climate Investment Conference, hosted by the ORASECOM Lesotho Office. Held on 8 May 2025 at the Avani Maseru Hotel, the conference served as a vital platform for transboundary dialogue on water resource management among the four ORASECOM member states: Lesotho, Botswana, South Africa, and Namibia.

In addition to its participation in discussions, LHDA showcased two of its forward-looking energy initiatives: the Oxbow Hydropower Project and the Floating Solar Panels. These projects, exhibited at the conference, reflect LHDA's dedication to advancing Lesotho's national priorities on renewable energy by leveraging the existing infrastructure of the Lesotho Highlands Water Project (LHWP).

LHDA's active engagement at the ORASECOM Climate Investment Conference reaffirmed its role as a regional leader and knowledge hub in integrated water resources management. Through continued collaboration and innovation, the Authority remains at the forefront of shaping a sustainable and water-secure future for Southern Africa.
