

His Majesty King Letsie III Champions Lesotho Tourism at Katse Dam

As part of ongoing national efforts to position Lesotho as a premier tourism destination, His Majesty King Letsie III participated in a film production at Katse Dam on 17 March 2026.

The production, led by the Lesotho Tourism Development Corporation (LTDC), forms part of a broader initiative to showcase Lesotho's unique tourism assets to both domestic and international audiences. Katse Dam, renowned for its striking highland scenery and engineering significance, continues to stand out as one of the country's most iconic destinations.

The Lesotho Highlands Development Authority (LHDA), as a strategic partner to LTDC, played a key enabling role in facilitating this initiative. LHDA remains committed to supporting tourism development by availing its infrastructure and facilities for film shoots, media productions, and other promotional activities that elevate Lesotho's global profile.

This collaboration reflects a shared vision between LHDA and LTDC to unlock tourism potential within project areas, ensuring that infrastructure development not only delivers water and energy security, but also contributes meaningfully to economic diversification and local livelihoods.
